## INTENSIVE OUTPATIENT PROGRAM

*Solutions*  
INTENSIVE OUTPATIENT PROGRAM  
OF NORTH TEXAS

After operating an effective, affordable residential recovery center since 2006 for men and women, **SOLUTIONS OF NORTH TEXAS** is now offering an Intensive Outpatient (IOP) program for addicts and alcoholics looking to recover. Utilizing the same principles and **12-STEP MODEL** our residential facilities are based on, we now have an alternative for those who desperately need to recover from the devastation of addiction, but may not be able to commit to a residential setting. Our unique and powerful program is centered around the traditional 12 Step philosophies of **SPIRITUAL AND EMOTIONAL GROWTH** as well as Solution's commitment to full Family Wellness. The curriculum of our IOP, like the structure of our residential facility, has evolved out of our Executive Director's experience along with that of his dedicated staff and is unlike any other IOP available. Touching on all aspects of recovery such as **RELAPSE PREVENTION, MORAL AND CIVIL RESPONSIBILITY, LIFE SKILLS, FAMILY WELLNESS, PHYSICAL WELL-BEING** and understanding the physical ramifications of addiction, what we offer is a

**WELL-ROUNDED EXPERIENCE** with a dimension of customization based on one's needs through one-on-one sessions with a licensed clinician. Solutions, as always, is concerned with all facets of recovery – physical, emotional and spiritual. We are also ready and willing to collaborate with probation and parole where necessary and are available to attend court dates, in support of our clients, as needed.

Programs are available for **FAMILIES AND LOVED ONES** as well. We have carefully considered our price; making **SOLUTIONS OF NORTH TEXAS IOP** accessible. For some, an outpatient setting isn't enough structure and we can offer a step beyond in our residential facility.

We offer a full spectrum of clinical Outpatient Treatment Services. We accept all private insurance and are currently in network with Blue Cross Blue Shield Insurance.
