

Solutions of North Texas Offers Customized Addiction Recovery Programs

Need help? Don't know where to go? Let the team at Solutions of North Texas guide you and your family in creating a recovery solution for an addiction problem.

Solutions of North Texas is a drug and alcohol recovery facility located in Denton, TX. They opened their doors in 2006 with their first 10-bed residential recovery facility. They have since grown to 46 beds in their residential facility and now include interventions, outpatient and court services in their programming.

Solutions of North Texas commits to the whole family's wellness and has programs designed for all family members who are struggling with the

devastation of addiction. The organization's programming encompasses many areas of recovery and allows them to provide a custom plan of action for each client. They guide clients in developing a recovery program which sustains an effective, sober way of living.

Their services include the following:

Intervention Services-An intervention is an orchestrated effort by one, or often many people, to encourage someone to seek professional help with an addiction, traumatic event or crisis, or other serious behavioral challenge. Their crisis interventionist will collaborate with the treatment

provider, the family and their team of recovery specialists to help customize an aftercare plan for both short and long-term success.

Residential Services – Solutions of North Texas provides safe, secure, residential housing for clients to begin their journey of recovery. Their experience shows that becoming financially accountable and self-sufficient is an important aspect of recovery. Their programs offer a full spectrum of services designed to maximize success in recovery and life management, both during and after the clients stay at the residence.

Clinical Services – Solutions of North Texas offers an outpatient, non-residential program and counseling services for anyone devastated by the effects of addiction. They offer treatment services for individuals and families who want to recover from addiction and its effects. Their masters level counselors utilize the 12-step philosophies of spiritual and emotional growth in their custom curriculum.

Court Services – Solutions of North Texas offers classes and evaluations that are often required by the court system. They also provided evaluations to help attorneys present a client's case to court. They have been active participants in the legal system for many years and serve on

five out of the six specialty courts in Denton County. They are experienced, objective professionals who can help guide you through this maze during an emotionally difficult time.

Their programming is designed to guide their clients through a recovery program that has been fine-tuned by their staff over 10+ years of helping those struggling with addiction.

Solutions of North Texas offers a program that includes hands-on services with a custom recovery plan benefitting all involved.

The staff is passionate and dedicated with years of experience in drug and alcohol addiction and recovery. They use those experiences to help every client.

Support, accountability and self-sufficiency are the keystones to this program. They support their clients by understanding their addiction. They also hold their clients accountable and provide consequences for their actions. Most importantly, they teach them to stand on their own two feet and move forward in their lives as independent, functioning individuals.
